REMARKS

Claims 1-38 have been allowed. The Examiner is respectfully requested to consider the remarks contained herein.

DRAWINGS

Applicant has changed the notation of transistor 123 in FIG. 6 to a PMOS transistor. Support for the amendment appears in paragraph [0048] where a discussion of the impedance at a gate of the transistor is shown. The impedance is characterized as being very high, which would only be the case in FIG. 6 if a PMOS transistor is used. No new matter has been entered.

CONCLUSION

Prompt and favorable consideration of this amendment is respectfully requested. If the Examiner believes that personal communication will expedite prosecution of this application, the Examiner is invited to telephone the undersigned at (248) 641-1600.

Respectfully submitted,
